JoCoSiR Author Guidelines

Author Guidelines (Update on November 04, 2025)

A. General Requirements

The minimum standard requirements of *Journal of Computer Science and Research (JoCoSiR)* must be:

- Written in **English**.

- The length of submitted paper is **at least 4 pages and no more than 10 pages**.

- Use a tool such as **Mendeley** for reference management and formatting, and choose **IEEE style**.

- Make sure the paper is prepared using the **JoCoSiR paper template**.

- Submission file must be in **OpenOffice, Microsoft Word, RTF, or WordPerfect** format.

- Article must include **similarity test results (e.g., Turnitin)** with **maximum 20% similarity**.

B. Structure of The Manuscript

Manuscript should follow the structure:

- **Title**: max 12 words, without acronym or abbreviation.

- **Abstract**: max 230 words, no citation, must include:
  - Primary objective
  - Research design and methodology
  - Main outcomes and results
  - Conclusions

- **Section structure** (for research articles):
  - Introduction
  - Method
  - Results and Discussion
  - Conclusion

- **Section structure** (for review articles):
  - Introduction
  - Background of the Study / Related Work
  - Research Method
  - Results and Discussion
  - Conclusion

- Limitations and Future Works
  - References
- **References**: minimum **25 references**, at least **80% from Scopus-indexed journals**, and **not older than 5 years**.

Each Submitted Article Must Contain the Following Points:

Title

1. Title represents the content.
2. Title has never been mentioned in other journals.

Abstract

1. Provide research problem and objective.
2. Provide applied research method.
3. Provide result of the research.
4. Provide relevant keyword.

Introduction

1. Provide research problem.
2. Provide writer's insight and plan to solve the problem.
3. Provide research objective.
4. Provide theoretical background.
5. Provide expectations of results and research benefits.

Method

1. Describe method clearly.
2. Cite sources that assist author in method selection.
3. Explain how data was obtained.
4. Write procedure chronologically and clearly.
5. Explain how results were measured, tested, and evaluated.

Result and Discussion

1. Data presentation and explanation must be valid and reasonable.
2. Tables and figures should support the explanation.
3. Discussion or analysis must be relevant to research results.

Conclusion

1. Provide summary of main findings.

2. Provide research contribution.

3. Provide research implication.

4. Provide research limitation.

5. Provide future research direction.

References

- Minimum **25 relevant references**, primarily **80% or more from Scopus-indexed journals** (maximum age 5 years).
